

I understand that there is a proposal to allow LPFM to take priority over current FM translator service. This would impact my ability to hear K-LOVE radio in various parts of Arizona. K-Love is a tremendous asset to its listeners and to the area served.

Not only does KLOVE provide inspirational music, it provides public service announcements, news, commentary, and in general programming that is in the public interest. As a resident of Arizona I would be negatively impacted by this change.

Arizona needs radio programming that encourages good citizenship, law-abiding behaviors, strengthens the family and the social fabric, and encourages general respect within the community for the diverse ethnic groups represented in this beautiful state.

KLOVE never has and never will support programming that encourages our great citizens to engage in behaviors that endanger our general freedom and public good, something which cannot be said for stations carrying programming of shock jocks and the entire genre of "edge" programming that is increasingly contaminating our airwaves with a disrespect for our Republic and the principles on which it was founded.

Please reconsider the negative impact this proposal would have on our communities across America. Give KLOVE the support they so richly deserve in serving the long-term interests of our nation.
